The background of the slide is a vintage, sepia-toned map of South America. A magnifying glass is positioned over the central part of the continent, focusing on the area around the Amazon basin and the Andes. The map features various geographical labels in Spanish and French, such as 'CANADA PRO.', 'TIERRA DE CIADOS', 'OCEANO MERIDIONALE', and 'SIERRA DE S. DOMINGO'. The text 'The Saul Team' is overlaid in a large, black, sans-serif font on the right side of the map.

The Saul Team

Framework

When God called Saul to be a king, God confirmed the call repeatedly. There was no question that God was in this. However, Saul was a farmer. He had a family and land and knew what to do in that context. He had never been king, and there was no existing structure to plug into.

Many people served in the familiar structures of the institutional church even though it was not a good fit. The structure was there, and it was easy to plug in. Now there is a call but no structure. It can be challenging to get traction when you have to create the road, then invent the vehicle, before you can drive to the destination. This is not an original problem!

Qualification: You must clearly know your calling and have your personal journey fairly well under control, and you must have some discretionary time to invest in building the needed structures

Format: We will limit it to 30 people, in one team, with a year-long commitment. There will be a monthly live video event just for The Saul Team with Q & A, focusing on the different components of getting started. Each month there will be a specific project for you to work on, in your playing field, with e-mail support from Arthur to customize it to your vision.

Cost: \$250 per year.

Benefit: Perspective on building an on-ramp.

1) The Prototype

The fulfillment of your call requires resources you do not have now. There is an art form to building a prototype of the big dream, so as to start the process.

The background of the slide is a historical map of the Americas, showing various geographical features and place names. A magnifying glass is positioned over the southern part of the map, focusing on the region of Brazil and the southern coast of South America. The map includes labels such as 'CANADA PRO.', 'TIERRA DE CIADOS', 'COSTA DE CANCRO', 'GOVERNATION DE FRANCESCO', 'PICARO ELPERV', 'BRASIL', 'COLAO PRO.', 'QVITO PROVIN', and 'OCHRANO MERIDIONLE'. The magnifying glass highlights the southern coast of South America, showing various rivers, mountains, and settlements.

The Saul Team

2) How to Receive

Often when our Kingdom project is not advancing, it is because we do not know how to receive from all three members of the Trinity. We will discuss the markers for selective receiving, and how to heal from the misalignment with the Trinity.

3) How to Develop Authority

To produce transformation, you need natural skills and spiritual authority. Most of the time the skill set is larger than the authority needed. We will discuss how to identify the less obvious, but totally essential authorities, that will be needed for the big project.

Each video call will highlight the journey of several people in The Saul Team, showing ways to engage more effectively in all three areas.
